Fred Merryfield Papers
Preliminary Container List

Following is an item-level list of the materials received with the transfer of the Fred Merryfield Papers.

DOCUMENTS OF FRED MERRYFIELD

Bundle 1

Roll of drawings, 1946 (pre-CH2M)-1954 (CH2M) of sanitary landfills, sewage systems, for towns including Forest Grove, Toledo.

Membership Certificate, Institution of Water Engineers (rolled)

Diploma, American Society of Civil Engineers, 1946 (rolled)

Folder, fraternity membership certificates (Tau Beta Pi, 1932; Sigma Xi, 1930; Pi Tau Sigma, 1942; Sigma Tau; Phi Mu Delta, 1931)

Letter—Honorary Member Rotary Club, Corvallis

University of Oxford Exam Certificate 1/24/1900

Photo—Fred in singing group

Dedication of Merryfield Hall program, 1978, and documentation on renaming Production Technology Building to Merryfield (memos, petitions, justification etc.)

PE license, State of CA

PE license, State of WA

PE license, State of ID

Sigma XI membership certificate

American Water Works Association Certificate of Appreciation

Membership certificate, Korean Sanitary Engineering Society

Membership certificate, Pacific NW Pollution Control Association,
Water Pollution Control Association

Water color, Benton Hall (mass-produced)

Certificate, Life Member, American Water Works Association

Certificate, Life Member of the American Society of Civil Engineers

First Engineering Focus alumni newsletter

Report, Research in Oregon (Oregon State System of Higher Education ~1960)

Manila folder: Course Work

Manila folder: news article on appointment as first president IWSA, news release on his OSU retirement, CV, obituary from Gazette-Times

Misc

Howland, Cornell, Hayes & Merryfield standing around a model. 8 x 10 photos (2)

Consulting Engineer, June 1968, reprint of article about CH2M.

Minutes of Meeting, State Planning Board, Advisory Committee on Stream Purification, 1936.

Announcement in American Water Works Association newsletter: Merryfield Elected Vice-Pres. of IWSA (1969).

Letter confirming his speaking engagement with the City Club of Portland, 1945.

Graf Hall photo, Exhibits in the hydraulic engineering department, unknown date.

Notification of Personnel Action, appointment as a consultant, 1965

Mailing list

Preliminary Site Data for Proposed Water Pollution Research Laboratory at Oregon State University (with 4 aerial photos), 1961

Supporting information for Water Pollution Research Laboratory at Oregon State University (3 booklets)

In the Matter of Sanitary Engineering Education-Research-Extension at Oregon State University, 1961 (For G.W. Gleeson, Dean of Engineering, and G.W. Holcomb, head of civil engineering).

Folder, house construction at 3513 Willamette Ave.

Letter from Professor Graf on Fred Merryfield's home heating system.

Letter from MC Phillips, superintendent of physical plant, OSC, on Fred Merryfield's home heating system.

Hydraulic Review and Guide for Selection of Centrifugal Mixed Flow and Axial Flow Pumps, prepared by Merryfield, with memo from Carl Ryden to Fred Merryfield.

Copy of letter to OSU President Jensen inviting him to give a talk at the Western Interstate Water Conference held at OSU August 5-6, 1965.

State Water Resources Board folder of laws, proposals, written analyses, newspaper articles, correspondence, including a signed letter from Governor Patterson inviting Fred Merryfield to be on the first board in 1955.

Folder 1H.14:

The Water System of Eugene, Oregon (brochure)

Senior Theses [at OSU] (Presentation at 48th Annual Meeting SPEE, Berkeley, CA 1940)

Report for the International Water Supply Association Congress: Problems of Drinking Water Supplies in Underdeveloped Countries, Brussels, 1958.

Public Relations, International Water Supply Congress and Exhibition, Stockholm, 1964 (3 copies).

The Pollutional Character of Flax Retting Wastes, Sewage Works Journal, 1934

Plans for Pollution Abatement of the Willamette River, for the ASCE National Convention, Spokane, 1946 (carbon copy).

Two carbon copies of paper, unknown title

Engineering Problems in Water Supply, Radio Talk, January 1936, on behalf of the Municipal League of Oregon Cities.

Status of Training Courses and Certification in the United States, Committee Report, Journal American Water Works Association, 1953.

Hydrologic Resources and Phenomena of Oregon, Journal of the American Water Works Association, 1931.

Editorial, "The Water Rate Structure Should be Realistic, Fair and Adequate," Water Works Engineering, April 1958.

History, Progress and Problems of Stream Pollution in Oregon, for the Commonwealth Conference, Eugene, Oregon, 1936 (Outline and carbon copy of paper).

Reprint, Treatment and Recovery of Sulfite Waste, Civil Engineering, June 1936

Copy of paper, unknown title

Outline of talk/paper on the Oregon State Water Resources Board

Fishes of the Willamette River System in Relation to Pollution, Engineering Experiment Station Bulletin, 1945

1945 Progress Report on Pollution of Oregon Streams

Persulfate Oxidizable Carbon and BOD as a Measure of Organic Pollution in Water, Proceedings of 15th Purdue Industrial Waste Conference, 1961 (2 copies)

Evaluation Criteria for Deep Trickling Filters, Journal Water Pollution Control Federation, 1961

Notes, "The Engineer's Image and Place in Society," 1975 (cover letter from Holly Cornell).

Evaluation Criteria for Deep Trickling Filters, Journal Water Pollution Control Federation, 1961

Saudi Arabian Waterwells, 1973 (unknown authorship)

Water law: An Engineer's Analysis, presented to ASCE National Water Resources Engineering meeting, 1971
