

Albert Einstein, chairman  
Emergency Committee of Atomic Scientists  
90 Nassau Street, Princeton, N.J.

APR 9

REC'D

\$1.00

I want to help in your campaign  
of education to ensure that atomic energy  
will be used for the <sup>benefit</sup> of mankind and not  
for humanity's destruction. Enclosed is  
a donation of \$1.00 toward your \$1,000,000  
Fund. Has the amount been realized yet?  
And what is your program of action? I  
ask in the chance that you have a forms  
letter to reply.

Audrey Graves

Audrey Graves - 308 East 77 St. - Seattle 5, - Wn.

April 22, 1947

Miss Audrey Graves  
308 East 77th Street  
Seattle 5, Washington

My dear Miss Graves:

Thank you for your thoughtful little note, accompanying your contribution to this campaign. I am sorry that it has gone so long unanswered; we have been sadly understaffed in this office due to illness in the past month.

The Committee's official receipt (for tax exemption purposes) is enclosed, and with it go the sincere thanks of the Committee for your support. As for your questions, the enclosed reprint of an interview given by Dr. Einstein will give you the facts you desire, concerning the progress of this campaign, while the Statement of Purpose of the Committee (also enclosed) will give you a clearer picture of the plans and program.

With sincere good wishes,

Cordially yours,

Mary E. Ray

Secretary to the Emergency  
Committee of Atomic Scientists
